# Hosting is human!

The students from \_\_\_\_\_ we have created this hosting passport to identify ourselves as global citizens, appeal to the humanity of all people and show our desire to welcome other children who are looking for their place in the world.

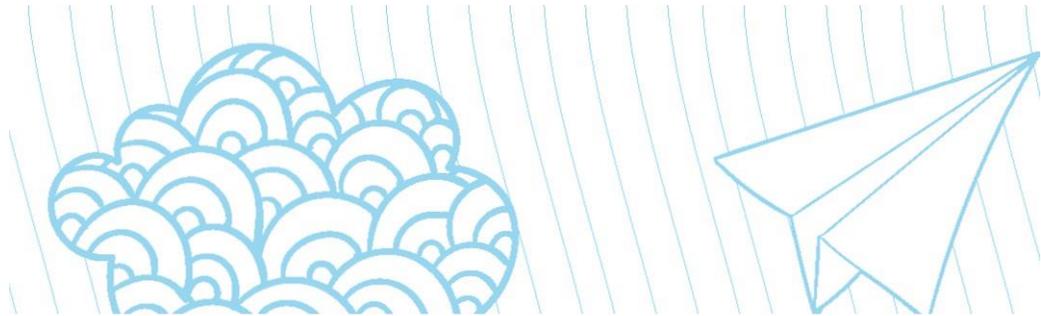

All children and adolescents have the right to have a proper house, to be protected, to have access to health, to receive education, to be able to play, to be with our families, and for the authorities to watch over us ... regardless of our origin, our skin colour, our religion or the ideas of our parents.

We call on everybody, including those who make decisions, to do everything possible so that no child is abandoned, excluded, alone or exploited when crossing a border.

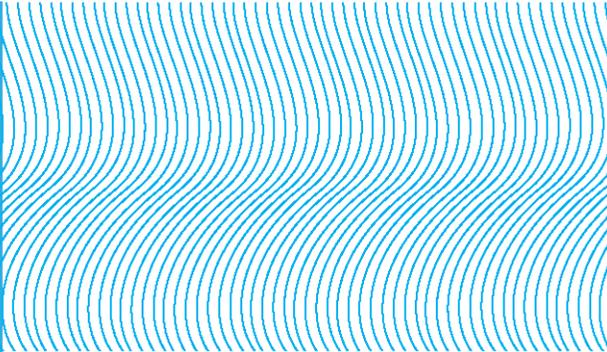

For this purpose, we sign this hosting passport.

Space for stamps, photos, drawings, messages or travel tickets:

## I am:

[Photo or drawing] 

My name: \_\_\_\_\_

My date of birth: \_\_\_\_\_

My place of birth: \_\_\_\_\_

I live in: -----
